APRIL MCKEON
1083 N 3300 S
MILFORD UT 84751

Dear Ms. McKeon:

This letter is in regard to a previous letter sent October 6, 1998 from this division indicating, based upon aerial photography of the Milford Valley, that you were over irrigating by 24.94 acres. In a telephone conversation, Kurt Vest, of our Cedar City office, indicates the change application, once perfected, will cover the irrigated overage mentioned previously. Therefore, please disregard the previous letter and accept my apology for this error. Our records have been corrected to show that for the 1998 irrigation season, you were within the 70.30 acre legal limits of your irrigation water rights.

If you have questions or comments regarding the above, feel free to contact me at (801) 538-7431.

Sincerely,

A handwritten signature in black ink, appearing to read 'John S. Larsen'.

John S. Larsen,
Water Rights Specialist III
